

A roadmap to relief

Major road upgrades afoot across all governorates

Mohammed Darwish
TDT | Manama

Urgent road infrastructure projects are in progress, as announced on the official website of the Ministry of Works.

These efforts aim to alleviate traffic congestion across all governorates, with the ministry currently advancing the third and fourth phases of these initiatives.

The third phase involves two key undertakings.

The first is the addition of a third lane in each direction on Mahzoorah Avenue, spanning from Umm Al Naasan Avenue to its junction with Avenue 37.

The second focuses on the enhancement of the Shaikh Jaber A. Al Subah Highway intersection with Avenue 1, extending to Umm Al Saad Avenue.

The fourth phase comprises four undertakings.

The first pertains to the enhancement of Avenue 77, from Avenue 47 to Road 4566 in Sanad.

The second addresses improvements to Bahrain Youth

The projects offer solutions to traffic issues

Avenue in the Educational Area.

The third involves the development of Mahzoorah Avenue in Riffa, between Road 3933 and Estiqlal Highway.

Intersection

The fourth centres on the intersection of Avenue 20 with

Road 2651 in Busaiteen.

The Ministry clarified that these projects aim to ease traffic congestion on various streets and intersections, catering to the needs of citizens on all major roads.

This effort forms part of a broader strategic plan for the

road network, which includes the construction of tunnels, bridges, and the expansion of main roads.

Typically requiring two to five years for completion, these projects are designed to accommodate urban growth and the increasing number of

vehicles.

They offer solutions to traffic issues, improve the efficiency of road networks, elevate performance levels, and ensure traffic safety.

These initiatives also align with housing and investment projects in the Kingdom.

Easing Southern Governorate traffic woes

The road connecting Hunainyah Avenue to Al Muaskar Highway

TDT | Manama

Work has kicked off on the road linking Hunainyah Avenue and Al Muaskar Highway in the Southern Governorate, according to Engineer Ahmed AlTajir, Assistant Undersecretary for Roads at the Ministry of Works.

This initiative is part of a broader effort to improve Bahrain's road network, ensuring smoother traffic flow in alignment with the Government Programme (2023-2026), aimed at benefiting the nation and its citizens.

AlTajir explained that the project involves constructing a dual carriageway, spanning 3.4 km, connecting Hunainyah Avenue from the north to Al Muaskar Highway in the south.

The plan includes developing intersections, providing side pavements, establishing a rainwater drainage network, enhancing lighting, and implementing traffic safety measures. Additionally, a treated water line for landscaping and irrigation will be installed.

He added that the project aims to provide additional access points for those heading to Hunainiya, East Riffa, and surrounding areas, thereby easing off congestion in the region

Gulf Air launches direct flights to Paris for 2024 Olympics

Streamlined travel for athletes, officials and spectators

TDT | Manama

Gulf Air has introduced direct flights from Bahrain International Airport to Paris, enhancing travel for the upcoming Paris Olympics 2024.

This service aims to provide seamless connectivity for athletes, officials, and spectators, ensuring they arrive comfortably and on time for the prestigious event.

Direct Flight Details

Gulf Air offers several daily flights to both Paris Charles de Gaulle Airport (CDG) and Orly Airport (ORY).

For instance, one key flight departs Bahrain at 01:35 AM, landing in Paris at 07:55 AM after a 7-hour, 20-minute journey.

These flights are designed to cater to the high demand expected during the Olympics, providing convenient options for travelers.

Enhancing the Travel Experience

Passengers flying with Gulf Air can expect exceptional service and luxurious amenities.

The airline's modern fleet

includes award-winning in-flight services, such as gourmet dining, spacious seating, and advanced entertainment systems.

These features ensure a comfortable and enjoyable journey for all passengers.

Convenient Connections

Bahrain International Airport (BIA) serves as a strategic hub, connecting travelers from various cities across Asia, Africa, and the Gulf to Paris.

The airport's state-of-the-art facilities and efficient processing systems further enhance the travel experience, making it a preferred choice for those heading to the Olympics.

Gulf Air's direct flights to Paris are part of a broader effort to support the global movement of Olympic delegations, media personnel, and fans, ensuring that everyone arrives ready to participate in or enjoy the games.

This initiative underscores Gulf Air's commitment to providing top-tier travel services and contributing to the success of the Paris Olympics 2024.

Community security and human rights a priority

TDT | Manama

The Interior Minister, His Excellency General Shaikh Rashid bin Abdullah Al Khalifa, emphasised the significance of enhancing community security programs and initiatives, which align with the values and principles of the comprehensive development process led by His Majesty King Hamad bin Isa Al Khalifa.

In his remarks, the Minister noted that this development process has bolstered the status of human rights and oversight institutions, strengthening their role in advancing the human rights system in Bahrain.
